

The REAL Choice of CHAMPIONS

4100 Turbolight 10W-40 High Performance Great Value

- A top grade synthetic oil that is great value for money.
- 4100 users often state that they are overwhelmed by the quietness and smoothness of operation when compared to other brands.
- Users also note that oil pressure and temperature is consistent even when the car is pushed to the limit.
- Adheres to strict European ACEA standards.
- Great for street and occasional track use.
- High lubrication power improves cold start ups.

4100 series also available in 15W-50.

8100 X-cess 5W-40 High Performance High Endurance

- Outstanding detergent properties ensure cleaner engines, better fuel economy and longer drain intervals.
- 100% synthetic oil specially designed for late model and powerful cars.
- Great for street and occasional track use.
- Offers excellent film strength that prevents dry start-ups, reduces engine friction, maintains oil pressure and decreases the operating temperature.

8100 series also available in 0W-30 and 5W-30.

300V Chrono 10W-40 Championship Winning Ultimate Performance

- Developed with the NISMO and Honda Mugen Japan GT teams and the Subaru World Rally Team.
- The oil you buy off the shelf is a direct development from the racing circuit.
- Uses "Double Ester Technology" which provides the biggest horsepower gains, 0% shear loss and the best engine protection under the harshest conditions on the track.
- Outperforms all other levels of oil technology.

300V series also available in 0W-20, 5W-30, 15W-50 and 20W-60.

Go to your nearest   or performance workshop and TRY THE OIL TODAY.
